

RIDHAM MAYANK MEHTA

Full Stack Developer

+91 7600637636 | ridhammehta940@gmail.com | [Portfolio](#) | [LinkedIn](#) | [GitHub](#) | Surat, Gujarat, India

PROFESSIONAL SUMMARY

Full Stack Developer with 2.5+ years shipping production systems across fintech, industrial IoT, e-commerce, and government platforms. Delivered 6 major features end-to-end (Java/Kotlin, Angular, ReactJS, Spring Boot, PostgreSQL) spanning real-time SCADA/PLC integrations, payment gateway processing, and AI-assisted document parsing. Led a 4-engineer team through PartsPlex delivery; consistently owns architecture-to-deployment across GitLab CI/CD pipelines.

SKILLS

- **Languages:** Java, Kotlin, Python, JavaScript, TypeScript
- **Frontend:** Angular, ReactJS, Next.js, Tailwind CSS
- **Backend:** Spring Boot (Java/Kotlin), Node.js, Express.js
- **Data:** PostgreSQL, MongoDB
- **DevOps:** GitLab CI/CD, Git, build & release automation

EXPERIENCE

Software Engineer | Potent Global Solutions — Bardoli, Gujarat

Aug 2023 – Present

Tech Stack: Angular, Java, Kotlin, Python, PostgreSQL

- Architected a Shift Management System with time-only (date-independent) shift creation, overlap validation, and a schedule-copy tool that cut manual scheduling time by 35%; shipped an Operator Punch module with dynamic filtering, auto shift-detection, and DOB-based authentication.
- Built the WatchTower Connectivity Menu integrating OPC DA, OPC UA, Modbus, and Siemens S7 for industrial IoT, plus Tag Management and Data Storage Mapping persisting SCADA/PLC data across 50+ connected devices for real-time monitoring.
- Delivered PGSCConnect for Gram Panchayats: automated Excel bill extraction/upload, real-time WebSocket + webhook chat, and PayU/BillDesk gateway integration — digitized tax payments for 10,000+ residents across multiple panchayats, eliminating door-to-door collection.
- Led a 4-engineer team building PartsPlex (Canada), an automobile-parts e-commerce platform; integrated Moneris payments, a 3-tier discount engine (part/customer/repair-shop), and real-time post-payment inventory validation processing 500+ orders/month.
- Built an AI-assisted invoice-parsing pipeline (prompt engineering) extracting structured data across 15+ invoice formats, improving extraction accuracy by 25%.
- Architected the CFC Platform (Strapi CMS + Angular) with dynamic forms/arrays, a franchise wallet system, and full service-request workflows for PAN, ITR, Aadhaar, and Insurance, supporting 150+ franchise operators.

Project Coordinator | AlphaBI — India

Jan 2023 – May 2023

Tech Stack: ReactJS, Next.js, Node.js, Express.js, MongoDB

- Coordinated delivery across 5 concurrent full-stack projects, running QA checkpoints and weekly status reporting that kept all engagements on schedule.
- Built and deployed a software consultancy web application on Netlify.

Frontend Development Intern | AlphaBI — India

May 2022 – Jun 2022

Tech Stack: HTML, CSS, JavaScript

- Built responsive UI components and fixed 20+ defects during testing/debugging, partnering directly with design on implementation.

PROJECTS

Live demos: [ridham-mehta-portfolio.netlify.app](#)

DropBazaar — Indian Dropshipping Platform

Tech Stack: ReactJS/Angular, Node.js, PostgreSQL

- Built an end-to-end dropshipping platform with a multi-vendor admin panel covering product listing, inventory, pricing, and order-dispatch tracking for 500+ SKUs.

Adala Badali — Clothing Rental App

Tech Stack: Angular/ReactJS, Spring Boot, PostgreSQL

- Built a rental platform for a New Zealand client supporting saree/ethnic-wear listings, availability tracking, and rental-duration/return workflows.

EDUCATION

B.E. Computer Science and Engineering

2019 – 2023

Gujarat Technological University, Ahmedabad
